

Longer Lasting Energy For More Electronic Devices

Camelion primary batteries include lithium, alkaline and zinc carbon. Lithium batteries have the highest energy density and are ideal for high drain devices such as digital cameras, music players and games. Alkaline batteries have long lasting power and a long shelf life. Zinc carbon batteries are economical and provide leakage proof, long lasting power for a wide range of household devices such as flashlights, transistor radios, remote controls and clocks.

Support Many Electronic Devices: Camelion offers a broad range of primary batteries designed to suit the growing range of electronic equipments and their applications.

High Quality: Batteries are manufactured to international standards using world class processes and systems.

Easy to Find: Camelion can be found in over 60 countries.

Economical: Camelion batteries offer consumers outstanding performance at reasonable prices as compared to many leading brands.

When you need powerful, long lasting batteries try Camelion.

Super Heavy Duty Batteries

Camelion Zinc Carbon batteries are a great choice for small household electronic devices that need lots of continuous power, such as clocks, watches, remote controls, flashlights, and radio cassette recorders. such as clocks, remote controls, flashlights and transistor radios. Manganese dioxide is used for the positive active material and zinc/ammonium chloride for the electrolyte in a leakage proof construction. These general purpose batteries offer a long shelf and service life, reliability, economy and versatility.

Shrink Wrap Packaging and Display Boxes
Handy Packaging!

Our shrink wrap packaging and display boxes help keep your batteries where you need them, with minimum fuss.

- Convenient, portable and durable
- Self-standing, sturdy display boxes
- Many sizes and shapes available
- Securely hold several batteries
- Professional, branded card inserts and designs for effective messaging

9V Lithium Battery

The new Lithium 9V Battery from Camelion is a high capacity battery designed to provide long lasting life and great performance in your high drain and high pulse electronic devices.

- 9V 1200mAH
- Up to 5X Longer Lasting*
- Low Self Discharge
- Anti leakage crimp design
- Temperature Range -20 to +55C
- Non-rechargeable
- 10 Year Shelf Life
- High And Stable Operating Voltage
- Optimal for High Drain and High Pulse Applications

*than standard alkaline batteries. Camelion 2010 Lab Tests.

Micro Batteries

Camelion Micro batteries provide stable energy for small electronic devices and are available in lithium, alkaline, silver oxide and zinc air chemistries, depending upon voltage and size requirements of your equipment. They are suitable for car keys, calculators, laser points, hearing aids and many other electronic gadgets.
